440×140×100	15kg
300×140×100	10kg
215×140×100	8kg

Stowell Concrete produces a useful range of padstones. Manufactured to a 50 N/mm² compressive strength, they are suitable for the majority of applications where a high-strength bearing pad is required – such as under steel joists. The padstones are produced in a range of sizes designed to fit most block and pier dimensions.

All products are available ex works.
Prices on application.
Telephone our sales office for further information and quotations.
