## STOWELL CONCRETE BARRIER

See overleaf for Stowell concrete barrier dimensions

Stowell concrete barriers are designed to slot together and be capable of...

- Creating straight or slow radiused divisions of yard or site traffic from walkways
- Defining restricted areas
- Resisting ram-raiding or other unauthorised vehicular access
- Being forkable by most yard and site forklifts
- Being craneable by lorry-mounted cranes\*

Stowell concrete barriers are 1500mm long with a base width of 605mm and stand 780mm high, they weigh approximately 950kg each.

Stowell concrete barriers can be bought as part of a composite load when first developing your site, and sold back to Stowell Concrete and collected by us at the end of development work if you have no further need for them.

Please phone 01934 834000 for guide prices including both new barriers and pre-owned barriers, and for an indication of buy-back values.

Available to order in red/buff/black and in natural ex-stock.

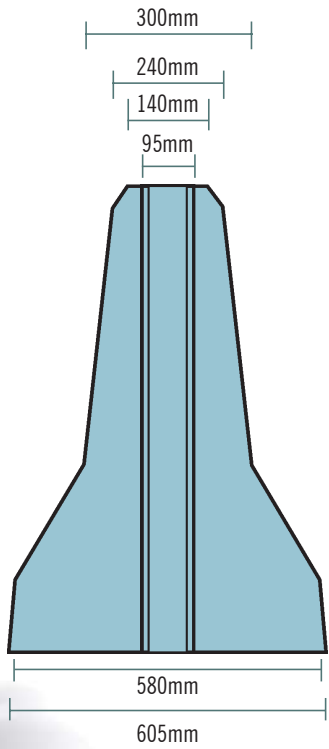

\*Please grab the concrete barriers at the bottom 605mm wide section.
