

Wet-cast patio paving

With its traditional finish and three colour choices, our flagstone is ideal for all patio and pathway uses. Its surface provides a firm base for garden furniture.

Patio paving in grey, buff or charcoal – 18 × 18 × 1½ inches

Approx. weight (kg)	no. per tonne	no. per pallet
19	52	30

Sizes are metric but are designated imperial to differentiate from hydraulically pressed product

Stowell wet-cast patio slabs are produced using concrete that is vibrated into specially developed moulds, and have a tough, smooth finish, built for durability* and strength.

While every effort is made to ensure that colours do not vary, complete consistency cannot be guaranteed.

Please contact the Stowell customer service department on 01934 834000.

*NB. The use of rock salt can seriously affect the surface finish of these products.
